

## Research Assistant Professor / Research Scientist positions in Biomedical Image Analysis

Applications are invited for a Research Assistant Professor / Research Scientist position at the Computational Biomedicine Lab ([www.cbl.uh.edu](http://www.cbl.uh.edu)), University of Houston in the area of Biomedical Image Analysis.

The Computational Biomedicine Lab provides a unique interdisciplinary research environment with internationally recognized collaborators from Medicine, Biology, Mathematics, and Engineering. The positions entail research in image analysis in collaboration with researchers from the Texas Medical Center. The candidate will benefit from mentorship of a diverse research team and will be exposed to cutting-edge technology.

Applicants should have a doctoral degree in Computer Science, Electrical Engineering, Applied Mathematics or a related field. The successful applicants will have solid research, interpersonal, and communication skills. Prior biomedical image analysis training is required.

The positions are open immediately and the salary compensation is very competitive. For consideration, please submit your application preferably in one single PDF-document including cover letter, a full CV, a statement of research interests and career goals and the names and email addresses of three references to [ioannisk@uh.edu](mailto:ioannisk@uh.edu), with subject line "PDF/RAP/RS: (your name)".

For more information please email Prof. Kakadiaris ([ioannisk@uh.edu](mailto:ioannisk@uh.edu)).

Kiplinger has selected Houston as it's overall #1 Best City to Live, Work, and Play for 2008 and Forbes as **Top 5 Up & Coming Tech City, #1 City for Recent College Grads, and #3 City for Young Professionals**. Houston offers an outstanding environment for research and professional opportunities for growth and collaboration. UH is an equal employment opportunity employer and smoke-free environment. Women and minority candidates are strongly encouraged to apply.
