MeVis
RESEARCH

MeVis Research, Center for Medical Image Computing,

in Bremen, Germany, is a non-for-profit research center dedicated to computer assistance in medical imaging, image-based diagnosis and image-guided therapy.

MeVis Research currently hosts 50 scientists from various disciplines (physics, mathematics, computer science, electrical engineering, radiology, and others) that work closely together within a network of almost 100 clinical partners worldwide (North America, Europe, Asia, Australia).

Currently, we are seeking

4 Researchers / Post-Docs

from the above named or related disciplines.

Fields of work include:

- Imaging Biomarkers
- Computer Aided Diagnosis
- Image Segmentation
- Quantitative Image Analysis
- Deformable Image Registration
- Uncertainty Visualization

If you are interested, meet us here at MICCAI 2008.

To do so, call +49 (172) 441 1281 or write an Email to hahn@mevis.de with a proposed meeting place and time.
